L. F. LOREE MAKES TABLE OF HOLDINGS

Worth of French Money Repayable in Francs.

abroad, while thirty-six replied that none of their securities was so owned. Eight companies have not yet replied. Seven are of minor importance and one of medium impertance, the combined mileage being 8,725 miles, but it is stated their reports at any event would not materially affect the general total.

Mr. Lorce states that the information chained by him was determined from data collected between October, 1914, and April, 1915, and because during that period there have been large sales of securities for foreign account

from data collected between October, 1934, and April, 1935, and because during that period there have been large sales of securities for foreign account in the American markets it must be remembered that to such an extent his figures would be overstated.

Report on French Holdings.

There are held in France, Mr. Loree also points put, several hundred millions dollars worth of American railroad securities that are not repayable except in franca, and they cannot in any likely contingency come upon this market unless as the result of action by the French government. Where such bonds are in default it may be there will be issued in place thereof, when reorganization is carried through, bonds payable in dollars. The amount of such bonds in default, however, Mr. Loree says is not great.

The grand total of American railroad securities held abroad, according to Mr. Loree's findings, is \$2.576.401.542, of which \$195,182.962 is stock and \$1.781.218.380 interest bearing obligations, all of which mature during periods ranging from on or before January 1, 1940. The following table shows in detail how the various totals are made up and the totals amaturing during stated periods:

On or be Jan 1, 1920.

N. Wallace, presend and che commany, is chairman, assures to the new commany to the meet complete independence, and gives to the complete independence, and s

tinuance of this investigation, especially in view of the large amounts of these securities that have since the beginning of the European war been returned to this market. Blanks will, therefore, be sent later in the year to the hundred companies as above, with the request that information be reported for the six months July 1 to December 31 as to bonds and other evidences of indebtedness and for July as to stocks."

Erie will be divorced from the new Terminal company with the arrangement for turning over the assets to the bondholders, who pay the assets to the bondholders, and the pay the assets to the bondholders, and the pay the assets to the bondholders, and the pay th

\$50,000,000 PROFIT IN DU PONT SHARES

with Par at \$100, Owing to Huge War Orders.

Wilmington, Del., June 27 .- The common stock of the Du Pont Powder Company, which has been going upward by leaps and bounds in the last five COLLEGES JOIN FOR PEACE months, touched \$700 yesterday. The par is \$100. The big advance means a Forty Institutions Ask Euro-

dicate of du Pont company officials, headed by the president, Pierre du Pont, who purchased the holdings of General T. Coleman du Pont in February. The price paid for the stock was \$200 a share, or approximately \$20.00,000.

The shares were not acquired for speculative reasons. When President T. Coleman du Pont announced his intention to retire because of his health other leading officials bought the stock to control it. They organized a holding company, and soon afterward, when big war orders were received, the stock began to jump. General du Pont is satisfied, however, for during January, preceding the sale, his holdings increased \$5,000,000 in value. It was following this that he bought the majority stock of the Equitable Life Assurance Society from the Morgan estate.

nal Railway Committee Report To-day.

SECURITY HOLDERS TO DECIDE QUESTION

Bondholders Would Get Control of Properties.

doned, first, because of the Bahah war, and last summer further attempts at reorganization were delayed by the outbreak of the European war. On another occasion the committee was about to promulgate a plan when the receivership of the Wabash Railroad necessitated its abandonment.

The plan now submitted by the receivership committee of which James

organization committee, of which James N. Wallace, president of the Central Trust Company, is chairman, assures to the new company to be organized

The stocks were identified by entries in the transfer books of the issuing companies. To the extent that they may be carried in the names of domestic bankers, brokers or positive tions for foreign holders, it is pointed out that the amount would be understanted. Mr. Loree's inquiries, however, indicate that such holdings will not exceed \$150,000,000 par value. Mr. Loree adds:

"There are held in Great Britain many of these securities by life and fire insurance companies that are likely to be held against calamities. There are also large amounts held by trust tees and people of large means in that and other countries likely to be retained as insuring an income against any possibility of disaster.

"It is believed that this information is of such general importance, as well as of such general importance to the railroads, as to warrant a continuance of this investigation, especially in view of the large amounts of these securities that have since the more organization. The 61 per cent stock of the Wabash Railroad, will get nothing in the reduced from the new Terminal company with the arrange-chalky in view of the large amounts of these securities that have since the more organization. The 61 per cent stock of the Wabash Railroad, will get nothing in the reduced from the new Terminal company with the arrange-chalk in the reduced from the new Terminal company with the arrange-chalk in the securities that have since the more for turning over the assets to constock, atty, M P Breen, ref. due, \$100.000.000.

tee, H. F. Baker, receiver of the property, says:

"The plan is in effect the payment of indebtedness prior to the bonds—save such as by the terms of the plan are left undisturbed—and will result in giving to the bondholders of the Terminal company, who are its real owners, the control of the properties. I believe the prospects for the future are bright and that with the owners in control of their property, the vexatious legal complications out of the way, and the fixed interest charges eliminated to the extent provided by the plan, the properties under normal the plan, the properties under normal business conditions and with compe-tent management will make a much better showing than is possible under any receivership."

JOHNSON ESTATE

Reports Received from Wabash Pittsburgh Termi- Comprises 579 Lots in the Clason Point Section

> The centre of interest in the salesroom offerings this week is the sale of COMPANY'S OFFICE 21-24 STATEST .. N.Y. the Bradish Johnson estate, comprising 579 lots in the Clason Point section of

The sale will be held on two days in the Vesey st. room, beginning to-mor-row at 10:30 a.m. It will be conducted by J. Clarence Davies and Joseph P.

Day.

The land, held intact for many years and to be liquidated now for a settlement of the estate, lies within four to eight blocks of the stations of the subway under construction, thus bringing way under construction, thus bringing overy part of the dual-system territory within its range at a five-cent fare. At the present time trolley lines make easy connection with the Lenox av. and Broadway subway.

The budget for the week in the downtown and the Broax salesrooms follows:

Several Hundred Million Dollars First and Second Mortgage

I. F. Loree, president of the Delaware & Hudson Company, who was asked by bankers last fall to head a committee of railway executives for the purpose of determining the amount of railroad securities held abroad, has just completed his efforts. Requests for information were sent to 145 railroad corporations, being all the railroad corporations, being all the railroad in the United States above one hundred miles in length.

Replies were received from 136 companies. One hundred companies furnished statements of securities held abroad, while thirty-six replied that pone of their securities was so owned.
